Assignment Customize the resources for \texttt{xedit} (classname is \texttt{Xedit}) with regard to the following:

1. colors used,
2. button labels,
3. actions taken (to keystrokes, etc.), and
4. fonts used.

You should make around 10 changes which suit your preferences better. When you are sure that your resources are working correctly include (\texttt{don't attach}) your \texttt{.Xdefaults} file (or at least that portion of \texttt{.Xdefaults} which pertains to \texttt{xedit}) in an e-mail to me.
