Courses in Fall 2020 or Spring 2021 that are noted as (added) or in RED font are contingent on faculty hiring in Spring 2020 and may change.

* Note: Core courses which are primarily scheduled in a single term of the year MAY have an additional section added if there is sufficient student demand for additional sections, if the department has the budget to offer additional sections, and if the department has faculty available to teach additional sections. For example, if there is a large waitlist for CMPS 3560 in Spring, an additional section may be added to the following Fall. These courses are noted in the rotation as "(added)" courses. The "(added)" courses may be canceled if there is insufficient enrollment in that particular term.
